Cilji in kompetence:

- Cilji so usposobiti slušatelje, da bodo poznali in razumeli:
- organiziranost Nujne medicinske pomoči v Sloveniji ter zakonodajo s področja Nujne medicinske pomoči,
 - značilnosti helikopterske NMP ter primarnih in sekundarnih helikopterskih prevozov,
 - organiziranost in naloge Službe NMP v primeru množičnih nesreč ter primarno, sekundarno in nadaljnje triaže,
 - univerzalni ABCDE pregled,
 - pristop in nujno ukrepanje pri nediferenciranem življenjsko ogroženem bolniku oziroma otroku,
 - pristop in nujno ukrepanje pri življenjsko ogroženem oziroma kritičnem poškodovancu na terenu ter priprava takega poškodovanca na transport v ustrezno bolnišnico,
 - spremembe smernic temeljnih in dodatnih postopkov oživljanja odraslih, otrok in novorojenčkov,

Objectives and competences:

The objectives are to enable students to know and understand:

- organization of emergency medical services in Slovenia, and corresponding legislation related to emergency medicine,
- characteristics of helicopter EMS, and primary and secondary helicopter transports,
- organization and tasks of EMS in the case of mass casualty incidents, and primary, secondary and further triage,
- universal ABCDE survey,
- approach to and urgent interventions in undifferentiated critically ill adult or child,
- approach to and urgent interventions in critically ill or injured patient in prehospital area, and preparation of such patient for transport to an appropriate hospital,
- changes in the basic and advanced life support guidelines for adults, children, and new-borns,
- approach to the patient with undifferentiated chest

<ul style="list-style-type: none"> • pristop k bolniku z nediferencirano bolečino v prsih (začetni pristopi, kritične diferencialne diagnoze, diagnostične metode, začetno zdravljenje), • pristop k bolniku z nediferencirano bolečino v trebuhu (začetni pristopi, kritične diferencialne diagnoze, nujne diagnostične metode, začetno zdravljenje), • pristop k bolniku z nediferenciranim oteženim dihanjem (začetni pristopi, kritične diferencialne diagnoze, nujne diagnostične metode, začetno zdravljenje), • pristop k bolniku z nediferencirano motnjo zavesti (začetni pristopi, kritične diferencialne diagnoze, nujne diagnostične metode, začetno zdravljenje), • obravnavo bolnika s (hudo) poškodbo glave in možganov na terenu, • najpogosteje zastrupitve po starostnih skupinah, klinične toksindrome ter začetno ukrepanje pri bolniku z domnevno zastrupitvijo (varni pristop, ABCDE pregled, simptomatska podpora, nujni antidoti). 	<p>pain (initial approach, critical differential diagnosis, diagnostic methods, initial treatment),</p> <ul style="list-style-type: none"> • approach to the patient with undifferentiated abdominal pain (initial approach, critical differential diagnosis, diagnostic methods, initial treatment), • approach to the patient with undifferentiated shortness of breath (initial approach, critical differential diagnosis, diagnostic methods, initial treatment), • approach to the patient with undifferentiated altered mental status/level of consciousness (initial approach, critical differential diagnosis, diagnostic methods, initial treatment), • approach to the patient with (severe) head and brain injury in prehospital area, • most common intoxication or poisoning by age group, clinical toxindromes, and initial management of the patient with suspected or known intoxication (safe approach, ABCDE survey, symptomatic treatment, antidotes).
--	--

Predvideni študijski rezultati:**Znanje in razumevanje:**

- organiziranost Službe NMP v Sloveniji,
- zakonodaje s področja nujne medicinske pomoči,
- organiziranost in lastnosti HNMP,
- organiziranost SNMP v primeru množičnih nesreč ter principov triaže,
- univerzalnega ABCDE pregleda,
- pristopa h kritično bolnemu oz. življenjsko ogroženemu odraslemu oz. otroku,
- pristopa h kritično oz. življenjsko ogroženemu poškodovancu na terenu,
- aktualnih temeljnih in dodatnih postopkov oživljjanja odraslih, otrok in novorojenčkov,
- začetnega pristopa, kritičnih diferencialnih diagnoz, nujnih diagnostičnih metod in začetnega ukrepanja pri nediferenciranih bolnikih z bolečinami v prsih in trebuhu, oteženim dihanjem in motnjami zavesti,
- smernic in posebnosti pri obravnavi poškodovanca s hudo poškodbo glave in možganov na terenu oz. v urgentnem centru,
- najpogosteje zastrupitev v posameznih starostnih skupinah, vključno z začetnim pristopom.

Prenesljive/ključne spremnosti in drugi atributi:

- pregled kritično bolnega oziroma življenjsko ogroženega bolnika/otroka po principu ABCDE,
- izvedba nujnih posegov v sklopu primarnega pregleda ABCDE (oskrba dihalne poti, zdravljenje s kisikom, vzpostavitev znotrajžilnega dostopa in nadomeščanje tekočin, korekcija hipo- in hiperglikemije),
- aktivacija ustrezne ekipe NMP (MoEREA, MoENRV, HNMP) in drugih služb,
- izvedba primarne triaže na terenu po metodi SIEVE,
- pristop k poškodovancu na terenu po sistemu ITLS

Intended learning outcomes:**Knowledge and understanding of:**

- organization of EMS in Slovenia,
- legislation related to emergency medicine,
- organization and characteristics of HEMS,
- organization of EMS in cases of mass casualty incidents, and principles of triage,
- universal ABCDE survey,
- approach to critically ill adult or child,
- approach to critically injured patients in prehospital area,
- current basic and advanced life support guidelines for adults, children, and new-borns,
- initial approach, critical differential diagnoses, diagnostic methods, and urgent interventions in patients with undifferentiated chest pain, abdominal pain, shortness of breath, and altered mental status/level of consciousness,
- guidelines and particularities when managing a patient with severe head and brain injury in prehospital area or emergency department,
- most common intoxication or poisoning in different age groups, including the initial approach.

Transferable/Key skills and other attributes:

- examination of critically ill or injured adult/child, according to ABCDE principle,
- performance of emergency interventions during the primary ABCDE survey (airway management, oxygen therapy, establishing IV access and fluid replacement, correction of hypo- and hyperglycemia),
- activation of appropriate EMS (MICU unit, ambulance, HEMS) and other services,
- execution of primary triage in prehospital area according to SIEVE method,

2025/2026

<ul style="list-style-type: none"> • ter začetni ukrepi in stabilizacija poškodovanca ter priprava na transport v ustrezno bolnišnico, • pristop k bolniku z bolečino v prsih na terenu ali urgentnem centru, • pristop k bolniku z bolečino v trebuhu na terenu ali urgentnem centru, • pristop k bolniku z dispnejo na terenu ali urgentnem centru, • pristop k bolniku z motnjo zavesti/sinkopo na terenu ali urgentnem centru, • pristop k bolniku z zastrupitvijo na terenu ali urgentnem centru, • pristop k poškodovancu s hudo poškodbo glave in možganov na terenu. 	<ul style="list-style-type: none"> • approach to injured patient in prehospital area according to ITLS system, and initial interventions and stabilization of the injured, as well as preparation for transport to an appropriate hospital, • approach to the patient with chest pain in prehospital area or emergency department, • approach to the patient with abdominal pain in prehospital area or emergency department, • approach to the patient with shortness of breath in prehospital area or emergency department, • approach to the patient with altered mental status/level of consciousness in prehospital area or emergency department, • approach to the patient with intoxication or poisoning in prehospital area or emergency department, • approach to the patient with severe head and brain injury in prehospital area.

Metode poučevanja in učenja:

Predavanja
Seminarji
Klinične vaje

Learning and teaching methods:

Lessons
Seminars
Practical work

Načini ocenjevanja:	Delež (v %) / Weight (in %)	Assessment:
<p>Način (pisni izpit, ustno izpraševanje, naloge, projekt):</p> <p>pisni izpit ustni izpit</p> <p>Pisni izpit je sestavljen iz 40 MCQ vprašanj v računalniški obliki, za katere je na voljo 60 minut. Ocena iz pisnega izpita se določi po naslednjem kriteriju: 37-40 točk: ocena 10; 34-37 točk: ocena 9; 29-33 točk: ocena 8; 25-28 točk: ocena 7; 21-24 točk: ocena 6; 20 točk ali manj: izpita ni opravil.</p> <p>Končna ocena se izračuna po formuli: $(0,5 \times \text{MCQ}) + (0,5 \times \text{ustni izpit})$, rezultat se zaokroži na eno decimalno mesto. V primeru, da ima končni rezultat decimalno končnico 0,5 ali več se ocena zaokroži navzgor, sicer pa navzdol.</p> <p>V primeru, da študent na pisnem izpitu doseže manj ali enako kot 25 točk, izpita iz predmeta ni opravil. V primeru, da je na ustnem izpitu ocenjen z manj kot 6, izpita ni opravil.</p> <p>ŠTUDIJSKE OBVEZNOSTI ŠTUDENTOV: Obvezna (100 %) prisotnost na seminarjih in kliničnih vajah. Pred vstopom na klinične vaje študent samostojno predela snov iz seminarjev in opravi pre-test na Moodle. Pre-test je</p>	<p>50 % 50 %</p>	<p>Type (written exam, oral examination, coursework, project):</p> <p>written exam oral examination</p> <p>Written exam consists of 40 MCQ in computerized format and is 60 minutes long. Written exam is graded as following: 37-40points: grade 10; 34-37 points: grade 9; 29-33 points: grade 8; 25-28 points: grade 7; 21-24 points: grade 6; 20 points or less: failed.</p> <p>Final grade is calculated as follows: $(0.5 \times \text{MCQ}) + (0.5 \times \text{oral examination})$. The result is rounded to one decimal place. Decimal results of the calculation will be rounded to the nearest whole number (0.5 or more is rounded up, less than 0.5 is rounded down).</p> <p>If a student gets 25 or less points at the written exam, he/she has failed the course. If a student does not get at least a grade 6 at the oral examination, he/she has failed the exam.</p> <p>ACADEMIC OBLIGATIONS OF STUDENTS: Obligatory (100 %) attendance at coursework and practical work. The student is obligated to</p>

sestavljen iz dvajsetih MCQ vprašanj.		study the materials of the seminars before he enters the practical work and to fulfill the pre-test on Moodle. The pre-test is composed from 20 MCQ.
