2025/2026

Univerza v Mariboru
Medicinska fakulteta

UČNI NAČRT PREDMETA / COURSE SYLLABUS	
Ime predmeta:	PBL - Predklinika I
Course title:	PBL - Preclinic I

Študijski program in stopnja **Study programme and cycle**	**Študijska smer** **Study option**	**Letnik** **Year of study**	**Semester** **Semester**
Splošna medicina, enovit magistrski študijski program		Prvi	1.
General medicine, Uniform master's degree study program		First	1st

Vrsta predmeta (obvezni ali izbirni) / **Course type (compulsory or elective)**	obvezni compulsory
Univerzitetna koda predmeta / University course code:	

Predavanja **Lectures**	**Seminar** **Seminar**	**Vaje** **Tutorial**			**Klinične vaje** **Clinical training**	**Druge oblike študija** **Other forms of study**	**Samost. delo** **Individual work**	**ECTS**
		AV	**LV**	**RV**				
	45						45	3

Nosilec predmeta / Course coordinator:	**red. prof. dr. Radovan Hojs**
Jeziki /Languages: **Predavanja / Lectures:**	slovenski/slovene
Vaje / Tutorial:	slovenski/slovene

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:	**Prerequisites for enrolling in the course or for performing study obligations:**

Vsebina (kratek pregled učnega načrta):	**Content (syllabus outline):**
Pouk pri predmetu poteka na osnovi reševanja primerov, ki so didaktično strukturirani tako, da pokrivajo vsa področja medicine in se pokrivajo s predmeti, ki jih študent obiskuje v tem letniku. PBL teče vzporedno ob predavanjih. Probleme študenti rešujejo v manjših skupinah, kar pomeni tudi pridobivanje in nadgrajevanje sposobnosti skupinskega dela, komuniciranja v skupini, itd. Učitelji so »pospeševalci učenja«. Vsebina primerov je priložena za učnim načrtom Modul PBL II – Anatomija in osnove predklinike II.	Course is based on case study, didactically structured to cover all medicine fields and overlap with courses studied during the academic year. PBL is carried out at the same time as lectures. Problems are solved in smaller groups. It means that students gain skills in team work, communication in team etc. Professors are »learning stimulators«. The contentce of cases follows the subject specification of PBL II- Anatomy and Basics of Preclinic II.

Temeljni literatura in viri / Reading materials:

1. Košnik, M., Štajer, D., Jug, B., Kocjan, T., & Koželj, M. (Eds.). (2022). Interna medicina (6. izd.). Medicinska fakulteta; Buča.

2. Loscalzo J, Fauci A, Kasper D, Hauser S, Longo D, Jameson J.L. Harrison's Principles of Internal Medicine (Vol.1 & Vol. 2). 21st ed. McGraw-Hill Education Ltd, 2022.

3. Feather, A., Randall, D., & Waterhouse, M. (Eds.). (2021). Kumar & Clark's clinical medicine (10th ed.). Elsevier.

Dodatna literatura

1. ostala literatura letnika vpisa

Cilji in kompetence:

Aktiviranje, izpopolnjevanje in prestrukturiranje že obstoječega znanja. Cilj je tudi sposobnost sočasne uporabe vseh razpoložljivih informacijskih virov. Pomemben del je tudi argumentiranje in citiranje uporabljenih virov v obravnavi posameznih problemov.

Objectives and competences:

Activating, upgrading and restructuring of already gained knowledge. Ability of simultaneous usage of all available information sources.

Argumentation and quotation of used sources in problem solving.

Predvideni študijski rezultati:

Znanje in razumevanje:

Gre za izpopolnjevanje, poglabljanje, aktiviranje ter prestrukturiranje že obstoječega znanja, ki ga študenti pridobivajo pri vzporedno potekajočem »klasičnem« pouku.
Prenesljive/ključne spretnosti in drugi atributi:

Sposobnost skupinskega dela, komuniciranja v skupini, argumentiranje, samodisciplina

Intended learning outcomes:

Knowledge and Understanding:

Activating and restructuring of upgraded and depend knowledge, acquired simultaneously with "classical" study.

Transferable/Key Skills and other attributes:

Ability of team work, communications in group, argumentation and self discipline.

Metode poučevanja in učenja:

Metoda sedmih korakov:

-ugotoviti in razjasniti besede in fraze, ki se pojavljajo ob opisu problema

-iskanje pomembnih sestavin

-s pomočjo ključnih besed uporaba viharjenja možgan za iskanje razlag

-urejanje razlag v rešitve

-opredelitev ciljev za preverjanje veljavnosti razlag

-individualen študij z uporabo informacijskih virov

-izmenjava rezultatov individualnega študija z drugimi člani

Learning and teaching methods:

The Seven-Step Method:

-find out and explain terms and phrases related to description of problem

-looking for important components

- key words - brainstorming of key words to generate explanation

-organising of explanations into solution

-definition of aims for testing of the validity of interpretations

-individual study and usage of information sources

-exchange of results of individual study with other members.

Načini ocenjevanja:	Delež (v %) / Share (in %)	**Assessment methods:**

Način (pisni izpit, ustno izpraševanje, naloge, projekt) Aktivno sodelovanje pri reševanju problemov v skladu z metodo sedmih korakov. Pogoj za uspešno opravljene obveznosti je najmanj 80% prisotnost.	**100**	Type (examination, oral, coursework, project): Active participation in problem solving according to the Seven-Step Method. The condition for successfully completed obligations is at least 80% attendance.
