Pensak M. Clinical otology 2014

Cilji: Študent razume osnovne principe in diagnostične metode pri zdravljenju malignomov ORL področja, ter pomen in način zdravljenja poškodb obraznega skeleta. Razume indikacije, diagnostiko in osnovne principe operativne terapije naglušnosti.	Objectives: Student understanding new principles in treatment head and neck cancers. Provide current information's in restoring injuries of facial skeleton. Understands indications, diagnostics and principles surgical techniques of hearing loss.
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Predvideni študijski rezultati:

Razumevanje različnih možnosti zdravljenja in pomen timskega dela. Prenesljive ključne spremnosti in drugi atributi: Sposobnost pravilnega ocenjevanja zdravljenja in pravilna nadaljnja napotitev in zdravljenje bolnikov pri različnih specialistih.	Knowledge and understanding: treatment and importance of team-work. Transferable/Key Skills and other attributes: Understanding new therapeutical methods and throue cooperation's with different specialist.
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Metode poučevanja in učenja:

Predavanja
Seminari (v seminarški obliki samostojna izdelava načrta predvidenih preiskav in metod zdravljenja)

Learning and teaching methods:

Lecturers
Seminars (real patients-treatment plans)

Načini ocenjevanja:

Način (pisni izpit, ustno izpraševanje, naloge, projekt)
Pisni izpit
Ustni izpit

Delež (v %) /**Weight (in %)****Assessment:**

50 %
50 %

Type (examination, oral, course work, project):

Written exam
Course work (oral)
